Controlling and adjusting notification settings:

As you belong to the same courses as your son, you will note by default you will start receiving notifications of communications across all his courses. We appreciate you may not want to receive all this communication, so you can control what you receive by following these simple steps:

1. When logged in select ACCOUNT in the top left corner of your dashboard

2. You can add additional email addresses or mobile numbers that you can use to be notified when activities are communicated in your son's courses. Choose settings and '+ contact method'

3. You can also select what you notifications about. This is where you can reduce the number of alerts that are being forwarded to your email account. We suggest **DUE DATE** and **GRADING** as being most useful for you as a parent.
